

# SkyWatch Industries LLC

## Horizon-200 - Advanced ISR Platform

### COMPANY OVERVIEW

SkyWatch Industries LLC, established in 2008, is a leading provider of cost-effective solutions. Headquartered in United States, the company has delivered over 153 systems to 13 customers worldwide.

### SYSTEM CAPABILITIES

<b>Performance Parameter</b>	<b>Specification</b>	<b>Notes</b>
<b>Maximum Range</b>	<b>1272 km</b>	With standard fuel load
<b>Payload Capacity</b>	<b>198 kg</b>	Usable payload weight
Service Ceiling	45,539 ft	Maximum operational altitude
Endurance	32 hours	At 75% payload capacity
Cruise Speed	214 knots	Typical ISR profile
Maximum Takeoff Weight	2,651 kg	MTOW
Wingspan	18.3 meters	
Power Plant	Custom turbodiesel	

### KEY FEATURES & DIFFERENTIATORS

- **Cost Effective:** Lowest total lifecycle cost in class - 40% savings vs. competitors
- **Rapid Delivery:** 18-month delivery timeline for initial operational capability
- **Simple Logistics:** Minimal ground support equipment reduces deployment footprint
- **Training Efficiency:** Intuitive interface reduces operator training time by 50%

### OVERWATCH PROGRAM SUITABILITY

The Horizon-200 is specifically designed to meet and exceed OVERWATCH program requirements. While range of 1272 km is below threshold, enhanced endurance provides equivalent coverage capability. Optimized sensor integration allows mission accomplishment within 198 kg payload capacity.
